Weather

Fine weather. The maximum temperature yesterday was 94.1 and the minimum 77.0, the figures for the corresponding day last year being 95.2 and 78.1.

REUTER GETS REPORT THAT DOCTOR SUN IS CRUSHED

Final Downfall Ascribed To Recent Defeats Of His Forces

MAY COME NORTH

Canton Sends News Of Engagements Fought Aug. 5 and 6

(Reuter's Pacific Service)

Shanghai, August 9.—Reuter learns from official sources that as a result of the defeat of Generals Hsu Chung-chih and Chen Chia-yu at Namyung and Lochang on August 5 and August 6 respectively, the power of Dr. Sun Yat-sen in South China has been finally and completely broken.

It is expected that within a day or two Dr. Sun Yat-sen will flee the South, probably but not certainly for Shanghai.

BY JOSEF W. HALL
Staff Correspondent the China Press

Peking, Aug. 9.—It is reported here that General Tsao Kun has sent representatives to Shanghai to confer with agents of Dr. Sun Yat-sen on the general reunification project. The Chihli Tuchun is said to entertain the belief that he will be able to present inducements that will bring about Doctor Sun's retirement from politics and thereby improve his own chances to become President.

Representatives of the Peking Cabinet and agents of General Chang Tso-lin also are holding a conference in Tientsin and are dealing with the questions of restoring to General Chang his titles and the restoration to the Peking Government by General Chang of the Manchurian salt fields and the Peking-Mukden Railroad.

(Reuter's Pacific Service)

Peking, Aug. 9.—Foreign telegrams from Canton state that General Chen Chiung-ming's forces on August 5 captured General Hsu Chung-chih's main base at Namyung. The defeated troops have retreated to Chinan, across the Kiangsi border. On the following day another force commanded by one of General Chen's leaders attacked Lochang where they defeated General Chen Chia-yu's force which recently came to the assistance of General Hsu Chung-chih from Hunan. The attack was completely successful and the defeated troops were driven back to Hunan. The telegrams add that these actions will probably mark the end of important engagements in the near future.

Peking, Aug. 9.—General Chang Tso-lin's son is at present in Tientsin where, it is understood, he is negotiating with representatives of the Central Government and General Wu Pei-fu with a view to the restoration of General Chang's titles and his co-operation in the reunification plans.

RICSHA COOLIES STRIKE FAILURE; WORK IS RESUMED

Pressure of the thousands of unemployed yesterday brought to an end the strike of 600 ricsha coolies, renters of ricshas owned by the Star Vehicle Company. The coolies, all of whom pulled the company's ricshas operated only in Chapei, walked out as a protest against high rental and repair charges which they claimed were exorbitant.

All of the ricshas owned by the company were in operation yesterday, but there is no report of just what sort of a settlement was reached. It is believed that the sub-foremen who deal directly with the coolies are attempting to arbitrate the men's grievances.

CONTRACT AWARDED

(Reuter's Pacific Service)

Hongkong, Aug. 9.—The Hongkong, Canton and Macao Steamboat Company has awarded the Kowloon Dock Company the contract for building a new river steamer for the Hongkong and Canton service.

DOG DAYS STUFF

By Westa

EVER SINCE this dog column was started I have been keeping a sharp lookout for Slim Hanna, figuring that Slim, whose skill at spinning a yarn is exceeded only by his ability as a bond salesman, would be sure to have one or two good ones in that vast repertoire of his. So yesterday I saw him hot footing down Nanking road with a salt shaker in each hand, hot on the trail of a bird who looked to Slim like he might have twelve loose smackers in his jeans, that being the modest sum required for the initial payment on what Slim earnestly and eloquently insists is without doubt the best investment in Shanghai today.

"Hey, Slim," I yelled, "got any dog stories floating around loose in your system?"

"Dog stories," Slim repeated, "Whaddye mean, dog stories?"

"You know," I said, "dog stories—stories about dogs."

"Reg'lar dogs, gay dogs, hot dogs, wonks, loop hounds, or lucky dogs, like the ones that buy bonds?"

"Any old kind of dog will do."

"Well," said Slim, "of course you've heard that old chestnut about the guy that was walking along the street with his dog, and met a friend?"

"Nope, never."

"What! Never heard that one! Well, don't tell anybody you got it from me."

"This guy's name was Bill," Slim said, "and one day he was walking along the street with his dog, and met a friend. The friend said 'That your dog, Bill?' Bill confessed that he owned the dog whereupon the friend asked: 'Is he a thoroughbred?'

"'S-h-h-h,'" Bill warned, "'Not so loud—he thinks he is.'"

* * *

BY THE TIME Slim had finished telling this story the bird who looked like he might have had twelve loose smackers in his jeans had vanished around the Whiteaway Laidlaw corner, so Slim, after looking up and down the street to make sure that Dick Hutchinson wasn't in sight, volunteered a story about two colored baseball teams that engaged in a redhot game one day down in Alabama.

"Get this layout," said Slim, in his inimitable style. "Here were two evenly matched teams. Score is tied in the ninth inning. Team at bat has three men on bases. Two men out, two strikes and three balls on batter. Tight situation.

"Next ball pitcher throws goes eight feet over batter's head, but catcher, who is tall nigger, leaps in air and grabs it.

"Fo' balls, you's out!" yells nigger umpire.

"Riot follows. Eight niggers killed. Eighty niggers hurt. Fire department comes, also police department. Chief police finally catches umpire. Asks him: 'Wha' fo' you call man out on fo' balls?'

"'Co'se he's out,' says umpire. 'Ain't they three men already on bases? Whar's I gwine put him when bases already chuck full with niggers?'"

* * *

I'LL LEARN you to tie a kettle to a dog's tail!" Tommy's mother yelled at her son in high wrath, brandishing dad's razor strap over his tousled head.

"He wasn't our dog," pleaded frightened Tommy.

"Naw, he wasn't our dog," shrieked the enraged mother, "but it was our kettle!"

Major Hamilton To Speak Before Rotarians Today

Major Jack Hamilton, who made the trip to Lhasa with the Younghusband expedition in 1904, will be the speaker at today's weekly tiffin meeting of the Rotary Club. Major Hamilton arrived in Shanghai recently to become connected with the Chinese-American Publishing Company. Aside from the Thibetan expedition, he has had many other interesting experiences, and held commissions in the armies of three nations—Britain, France and America.

Chinese Girl Is Prize Student

ONE of the happiest of the 170 children who were graduated this year from Public School No. 23, New York, was Miss Florence Low, twelve-year-old Chinese, living at No. 34, Mott Street.

Besides winning the Morgan award of $20 for being the best cook in District 1, she won the second prize of $15 in the Evening Post Composition Contest with her essay on American history. The contest was open to all school children of New York under sixteen years of age. About 100 essays were submitted.

Miss Low was one of the fourteen honor pupils who occupied seats on the platform with the School Principal, Joseph D. Reardon, and the teachers. Her teacher is Miss Ethel C. Baptist. Fellow-graduates and schoolmates applauded enthusiastically when Florence stepped forward to receive her prizes.

"The Chinese make ideal pupils," Mr. Reardon told a reporter. "In the twenty years of my teaching career I have never encountered a Chinese who did not have an excellent school record."

Of the 170 graduates ten were Chinese boys and girls.

FIFTEEN SHIPS HELD HERE BY SEAMEN'S STRIKE

China Merchants Have Two More Vessels Tied Up

Two more ships of the China Merchants' fleet were tied up yesterday as a result of the seamen's strike, bringing the total number of vessels belonging to the company at anchor here to fifteen. The latest arrivals to be affected by the walkout were the Sinchung, which came in from river ports and the Kwang Lee, from Hongkong. The Kiangfoo from Hankow, and the Taishun, from Hongkong, both of which are due today, are expected to be added to the list on their arrival.

In the case of the two ships on the Hongkong run, the men are being paid on the new scale set by the union. Their walkout, however, was occasioned by insistence on the demand that they be paid the increase retroactive to January 1.

As far as is known, no action looking toward a settlement of the strike has been taken as yet by officials of the China Merchants Company. It was reported that a proposal was being considered to call a general meeting of the shareholders to take up the demands of the union, but nothing definite has been done in this regard so far.

Negotiations are under way between the union and the San Peh Steamship Company, the only other firm now affected by the strike. The company, it is said, has agreed to the union's new wage scale, but has balked at making it retroactive to January 1.

J. Harold Dollar To Return Here On Empress Of Canada

Mr. J. Harold Dollar of the Robert Dollar Company, who has been in America for some time past, is returning to Shanghai on the S.S. Empress of Canada, which sails from Vancouver August 24, according to a message received by the company's offices here yesterday. Accompanying Mr. Dollar will be Mrs. Dollar and their family. Mr. Dollar, during his absence from Shanghai was elected president of the American Chamber of Commerce for the current year.

LLOYD GEORGE TELLS FRENCH OTHERS ALSO LOST HEAVILY

Reminds Them Of Britain's $49,000,000,000 Outlay

CITES FIGURES

Reason For Big Armies Explained By Poincare

(Reuter's Service)

London, August 8.—In the course of his speech at yesterday's session of the inter-Allied conference, M. Poincare contended that the clauses of the Treaty were being less and less executed by Germany.

Germany's measures as regards the trial of war criminals had been most inadequate. German disarmament was unsatisfactory. Germany had made all kinds of difficulties over reparations. Germany's assessment had been constantly reduced.

France was getting nothing at all. She had paid 80,000,000,000 francs for reconstruction, which should have been paid by Germany, resulting in a most critical situation for France.

She was not Imperialistic but was eager for the reconstruction of Europe. She did not desire to deal unfairly with Germany. France had not reduced her armaments because she was not satisfied with the guarantees of her security.

He was convinced that any further taxation efforts on the part of France were impossible. Germany's position was entirely her own fault. She had recklessly expended on railways, waterways andd subsidies.

The French Premier added that Germany had inflated her currency without scruple. France's view was that a moratorium should not be granted unless on productive guarantees.

Mr. Lloyd George admitted that France had suffered more grievously than any except Russia but recalled the British and Italian losses. He cited the statistics of New York banks, showing that France's war costs had been $37,500,000,000, Great Britain's $49,000,000,000 and Italy's $14,500,000,000.

Here were reparation claims as great as France's, remarked the British Premier, even taking the devastated regions into consideration. Britain had also raised $93,000,000,000 by taxation during the war. Our trade had been completely devastated.

The whole population of the devastated regions of France was only equal to the number of British unemployed who had to be supported by the Exchequer.

Referring to disarmament Mr. Lloyd George said that Germany had surrendered 33,478 guns, 38,000,000 loaded shells, over 11,000 trench mortars, 87,000 machine guns, 4,500,000 small arms etc.

She could not have material to plan a military surprise on the Allies. It was well nigh impossible for her to manufacture munitions secretly.

In conclusion he urged the Allies to continue to act in unanimity.

Signor Schanzer said that Italy's taxation was 69 times greater than before the war. She had also a heavy debt. He thought that all the Allies should share equally any concessions necessary to secure settlement.

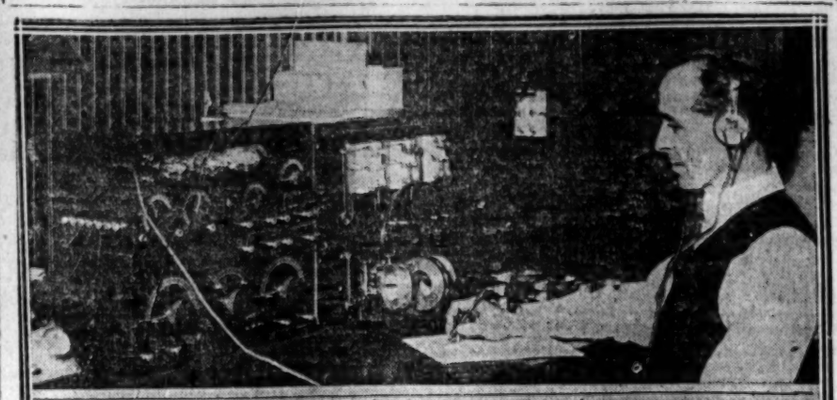
(Reuter's Service)

London, August 8.—The newspapers state that M. Poincare's scheme comprises the re-establishment of the customs barrier along the eastern frontier of the occupied area in Germany, Allied participation in German industrial concerns, a tax on Ruhr coal, control of the Reichs Bank and supervision of German revenues, exports and currencies.

It is understood that M. Poincare contends that a moratorium must be conditional on firm guarantees and that he desires his scheme to be submitted to Germany in the form of an ultimatum.

The proposals have been referred to the Committee of Allied Finance Ministers, which will report to the conference later.

Big Railroad System Operated By Wireless



Operating a railroad by wireless

THE operating room of the wireless station at Nashville, Tenn., of the Nashville, Chattanooga and St. Louis Railroad, used for wireless dispatching of trains over the lines of the road.

... who have watched it in operation predict a general use of wireless in this connection.

SZECHUEN ROAD BRIDGE OPENED TO ALL TRAFFIC

Council Chairman Dedicates New Span Across Soochow Creek

Formal ceremonies marking the opening to traffic of the new Szechuen Road bridge were observed yesterday morning when Mr. H. G. Simms, chairman of the Shanghai Municipal Council cut a silken cord which was stretched from one side of the span to the other. With Mr. Simms at the time were Mr. Harpur, commissioner of public works, and Mr. Liddell, commissioner-general.

Work on the bridge was started in April of last year. It consists of three spans built of reinforced concrete and steel and is of the cantilever type, the suspended span being of steel plate girders and the construction of the cantilever of reinforced concrete.

The central span is about 120 feet and the side spans approximately 56 feet each. The width of the bridge carriage way is 42 feet and the path 9 feet on each side, making a 60-foot breadth.

The general appearance of the bridge is that of three electrical arch spans, and the total cost is somewhere ground Tls. 200,000. It is the first bridge of its kind constructed in Shanghai so far, and it is more economical from the point of view of maintenance than wholly steel bridges. It is also infinitely superior in appearance. Other bridges of the same class will be constructed in future, it is expected.

NEW VALUATIONS MADE ON LOTS IN CENTRAL DISTRICT

In a long tabular statement published in the current issue of the Municipal Gazette the new values that have been placed on lots in the Central District of the Municipal Settlement under the land re-assessment that is in progress are given.

The work of making the re-assessment is being done by Messrs. Sparke and Moorhead. Notices to owners of property making provision for hearing of protests within thirty days have been sent out.

Hykes Manager For U. S. Steel Products Company

Word was received in Shanghai yesterday of the appointment of Mr. Arthur B. Hykes as manager of the Shanghai office of the United States Steel Products Company, and Mr. M. T. Jones as resident engineer for the firm here. Mr. Hykes has been with the company for the past thirteen years, and has been assistant manager of the Shanghai office since 1920. Mr. Jones came to Shanghai last June as assistant engineer. Mr. J. W. Gallagher, former manager of the company here, is now manager of its branch at Buenos Aires, South America.

Farewell Fete Is Given To Chinese Students Sailing For America On Saturday

Tsing Hua College Graduates And Others Guests At Reception Given By University Club And American Returned Students Club

Much instructive advice was given to the 140 Tsing Hua College and other students who are sailing on the steamer Nanking on August 12 for America to enter American Colleges at a reception given yesterday in their honor jointly by the American University Club and the American Returned Students Club at the latter's headquarters on Nanking Road.

The principal speakers were Judge Charles S. Lobingier of the United States Court for China, Mr. Julean Arnold, United States Commercial Attache and Judge T. S. K. Loh, vice-president of the Returned Students' Club, who also presided. Short responses were made by Mr. Jui Jen-wang of the Tsing Hua delegation and Mr. Dixon S. C. Su, representing the self-supporting students, numbering 80 this year.

In extending his greetings on behalf of the American Returned Students' Club, Judge Loh expressed satisfaction with the large number of "younger brothers" who were going to the States to seek more profound education in American institutions. Although little or no suggestion is required by the departing students, who had been thoroughly prepared in Tsing Hua and other colleges, the chairman felt that he wished to give them one message.

KEEP INFORMED, HE SAYS

"Keep in close touch with your home affairs," said the judge in part. "You can be thoroughly advised on Chinese questions by reading the newspapers and periodicals as well as correspondence with your trustworthy friends.

"The daily and periodical publication furnish a mass of information which would assist you in your knowledge of home conditions as well as enabling you to answer various questions put to you by your inquisitive American friends. When I was in the States, I was often confronted by questions having important bearings on our country. You will find the same condition. Therefore you must prepare yourself to answer them and answer them truthfully and intelligently.

"Under the present circumstances, we realise it is difficult for us to keep track of the march of events in China. Things are so uncertain that unless one keeps close track of the happening, one is soon lost in the mist of political complications that daily hung over the horizon."

Judge Loh pointed out the efficient devises adopted by the Japanese to picture their country in her highest glory. The Chinese students need not copy them, but they should properly interpret the conditions at home to the American public, tell the truth and win its sympathetic support.

ARNOLD IS SPEAKER

Mr. Arnold began with the announcement that it was his and Mrs. Arnold's intention to have the departing students out in their home for a social gathering, but in view of the many functions that had been arranged for them, he and Mrs. Arnold thought that it would be an imposition to tax on their time.

The speaker pointed out that the 140 young Chinese, when scattered in American universities, would be marked persons. They would be regarded as representatives from China, typifying the 400,000,000 left at home.

"As you move about," said Mr. Arnold, "your country is being judged by your movements in the United States. The past com-

(Continued on Page 2)

SILK STRIKERS LOSE; MAJORITY BACK AT WORK

Delivery Delayed By One Week, Manufacturers Tell Exporters

Millhands in all the Settlement and 17 of the 24 Chapei filatures returned to work yesterday after striking for almost a week without accomplishing their aims. They asked for shorter hours and higher wages. But firm determination on the part of the Silk and Cocoon Guild and Police interference joined in defeating the loosely organised strike.

Four of the six strikers were released on bond yesterday. The ring-leader, Kiangpeh Ah Nyi and the secretary of the union were held pending developments after a preliminary hearing before the Chapei Police Court yesterday. A remark from the bench that inciting others to strike was punishable by death caused a great deal of excitement among the strikers. Less than a thousand refrained from working yesterday and it is expected that by this morning, the entire force will return to work.

The seven filatures effected yesterday were the Lien Yih, Yuen Yuen, Yue Foong Wei, Yuen Tai, Tseng Lee, Hun Woo and Tai Lai. A flurry was caused at the last named filature when the report of the trial of the six arrested was made by one of the girls. The agitator appealed to the workers to join her in a demonstration in front of the police station to rescue the prisoner. The police was promptly notified and the agitator was warned not to create any disturbance.

Warrants for three more agitators have been issued by the Chapei police. The defendants are Chia Koo-nyuan, Chang Shao-ching and Tsao Lan-yin, who are alleged by the Silk and Cocoon Guild to have incited the strike originally. The guild has informed the Foreign Silk Association that on account of the strike, delivery of filature silk would be delayed.

Mr. Ting Ju-ling, who took an active part in the suppression of the strike, yesterday denied the reports in the local press that the strike would not effect the delivery of goods to the foreign shippers. On the contrary he stated that delivery would be delayed for a week on account of the strike. Seven hundred bales of silk would have been manufactured during the striking period, he asserted.

COAST AGAIN FACES MENACE OF TYPHOON IS WARNING

Signal Hoisted As Storm Approaches

B. I. SHIP LOST

Steamer Gondia Missing For Over Week

The menace of another typhoon faced Shanghai last night and the danger signal was hoisted on instructions from Siccawei Observatory at 9 p.m.

Earlier in the day the report from Siccawei stated that the typhoon was threatening Formosa but might incline more to the North, toward the Loochoos and the Eastern Sea.

Siccawei sent out an urgent message of warning at 9 o'clock. The report was as follows:

"A narrow center passes between Naha and the Meiaco-Lima threatening apparently the Eastern Sea and our coasts."

Yesterday brought further accounts of disaster wrought by the typhoon which battered and desolated the port of Swatow last week and lashed Northward along the coast, leaving death and destruction in its wake. News of one vessel which has apparently been lost at sea and of several others dashed ashore was contained in the day's reports, while the meagre information trickling through regarding the situation at Swatow tends to confirm the most serious of previous accounts.

B. I. SHIP LOST

The Coast Inspector yesterday issued an announcement regarding the loss of the British-India Steam Navigation Company's steamer Gondia, bound here from Rangoon. The Gondia was last spoken by wireless at 10 a.m. August 2, the day Swatow was stricken, according to word received by the company. The vessel was at that time in latitude 22 degrees 38 minutes N. and longitude 117 degrees 15 minutes E. The typhoon was then at its height in that area.

The Gondia was of 5,286 gross tons and was bringing cargo to this port. She carried no passengers. Beyond this the local offices have no information and it is believed that the ship went down with all hands. Shipmasters are requested, in the Coast Inspector's announcement, to look out for the Gondia when navigating the coast near the Lamocks and to notify the British authorities if they come across any evidence of the ship.

Two further accidents in the Yangtsze were reported during yesterday. The steamer Patriot, chartered by the Kailan Mining Administration was reported to have run ashore in the North Channel outside Woosung and tugs were ordered sent to the scene. The ship left Woosung Tuesday night about 8 o'clock. It was thought last night that she would be able to return to Shanghai under her own power.

JAPANESE SHIP ASHORE

A more serious accident is reported as occuring on Sunday, when the Japanese ship Shenyei Maru went aground on Tungsha Spit and suffered a terrific mauling from the sea. The officers and crew were taken off by the China Navigation steamer Hupeh but it is thought that the Shenyei cannot be salved.

All hope of salving the steamer Choysang, which went ashore at Fort Island during the typhoon, was given up by Messrs. Jardine, Matheson and Co. yesterday when word was received by the local offices that the steamer is a total loss. The same company's steamer Tungshing, which was driven on the beach at Swatow it is believed may be refloated. The Shantung, of Messrs. Butterfield & Swire, which also caught the force of the blow at Swatow, may also be refloated according to advices received yesterday. Members of the Choysang's crew were brought to Shanghai by the Indo-China company's ship Kwongsang, which arrived last night.

RELIEF FUND SOUGHT

Local efforts to send aid to the stricken port of Swatow were continued yesterday, members of the Chinese Red Cross and the American Red Cross working to secure funds and to enlist doctors and nurses to send South. Thus far one foreign doctor and two

foreign nurses and one Chinese doctor have volunteered for service among the victims of the storm. As none of the steamship companies has as yet announced definite sailing dates for ships to call at Swatow it is not known how soon the contingent from Shanghai may be able to get under way but it is hoped to send them off within the next few days.

The China Central Committee of the American Red Cross has cabled to Swatow for further particulars of the disaster and for an estimate of the number of physicians and the amount of money and food needed. Meanwhile the Central Committee is informing the society's branches throughout the country of the emergency and requesting money to be devoted to relief work.

In response to the call made in yesterday's issue funds have begun coming in to THE CHINA PRESS and to the Red Cross. Those wishing to contribute may send checks or cash either to Dr. W. W. Peter, honorary secretary of the China Central Committee, American Red Cross, 4 Quinsan Gardens, or the THE CHINA PRESS. All subscriptions received by THE CHINA PRESS will be turned over to the Red Cross and acknowledgment will be made.

(Reuter's Pacific Service)

Hongkong, August 9.—The General Chamber of Commerce is inviting subscriptions for the Swatow sufferers. The Chinese Tung Wah Hospital Committee has appropriated $10,000 for Swatow relief. The Chinese Chamber of Commerce is appealing to Chinese overseas to aid their Swatow nationals. The British American Tobacco Company has donated $1,000 to the relief fund and has shipped rice to Swatow. The Hongkong Government shipped a further 100 tons of rice last night.

The Directors of the Swatow Municipality have written a letter to His Majesty's Consul thanking the Hongkong Government for its most generous supplies. British and Japanese steamers are carrying relief supplies to Swatow free. Universal sympathy is being aroused by the appalling magnitude of the catastrophe.

Vacation Bible Schools To Hold Class Exercises

Forty-two daily vacation bible schools enrolling 3,000 students will hold their commencement exercises at the Martyrs' Memorial Hall of the Y.M.C.A. tomorrow beginning at 2 p.m. The principal address will be given by Mr. James Yen, secretary for popular education of the National Committee of the Y.M.C.A. There will be also exercises by the students of the Daily Vacation Bible School.

These schools have as their purpose the training of students during the vacation period by volunteer teachers drawn from the schools and colleges. The schools meet each morning and have included in their curriculum religious and general study.

Chinese Arrested By Dutch Police

(Reuter's Special Service)

The Hague, August 8.—The police of Amsterdam and Rotterdam today raided the Chinese colonies in those towns and arrested over 600 Chinese as a result of the recent great increase in murders in Chinese quarters.

All the arrested persons, except a few who can prove that they have proper means of living in Holland, will be deported to China.

ARREST IN SIMLA

(Reuter's Service)

Simla, August 8.—Mota Singh, the leader of an armed gang of Akali Sikhs, who was arrested in the Jullundur district in July, has been convicted of sedition and sentenced to five years' transportation and one year's vigorous imprisonment.

REFUSES AMNESTY

(Reuter's Service)

Calcutta, August 8.—The Earl of Lytton, Governor of Bengal, who is touring East Bengal, has twice refused to consider an amnesty for political prisoners.

Replying to an address yesterday he expressed the opinion that the country was quiet because the disturbers of the peace were in jail.

Supplied by All Chemists.

Physicians prescribe Chamberlain's Colic and diarrhoea Remedy because it relieves cramps in the stomach and intestinal pains quicker than any preparation they can compound. It can be bought from any chemist. A bottle will last for years and no home is complete without it.

Sold everywhere.

Farewell Fete Given To Departing Chinese Students

(Continued from Page 1)

plaint made against returned students was that their education was too academic. Many of them came back, laiden with degrees. They felt that they had acquired all the knowledge in the world when they come back with a doctor's degrees whereas the degree is a more indication of a beginning."

The great education to be had is the contact with American life, Mr. Arnold asserted. The students ought to appreciate the effective organisation of the American institutions and should make a keen study of it. Because it was this effective organisation that enabled the development of the American position.

The full text of Judge Lobingier's speech, which is entitled the "Twin Opportunities," is as follows:

"It is with no empty formality of words that I give you the assurance that I am glad to be with you on this occasion. Such occasions have always been pleasant ones for me but this one is especially so for several reasons. I have just returned from an extended sojourn in the Capital of my country and I have been impressed as never before with the extent to which that Capital is becoming the Mecca of the nations. I was there during the Disarmament Conference when delegations were present from so many countries. Shortly afterward an international congress of women was held in the neighboring City of Baltimore and the constant presence in Washington of so many who were not Americans demonstrates that consciously or not (and I was rather impressed with the fact that a great majority of my countrymen were not conscious of it) the peoples of many lands are looking to America for guidance and leadership. All this implies opportunity and what I shall say will be restricted mainly to that theme.

STUDENT'S OPPORTUNITY

"But let me speak first of the opportunity which awaits you. 'In the bright lexicon of youth there is no such word as fail' but perhaps the most important word there is opportunity. Youth is the time of opportunity, and youth never returns. Within the next few years you will encounter the forces which make or mar careers and to you is given the unique opportunity of education in a foreign land, contact with a different civilisation and the benefits of a new and strange environment.

"It is always a turning point in one's life to go away to college.

"In my own case I remember how important the day of departure seemed to me though I was going less than a hundred miles from home. But you are to cross the world's mightiest ocean and after that many of you will travel over a continent and view many scenes which must be full of fascination. Few students from any other lands than the Far East have such opportunities. Most of them are educated in their own countries and travel, if it comes at all, is experienced at a later and less impressionable age. With you it will be a part of the educational process and should be utilised to the limit.

"Your opportunities are also unusual in the large number of educational institutions from which you may choose. I wish to draw no invidious comparisons. Other countries have older universities than those of America; but few have so many. You will be able to choose from the privately endowed institutions which began in colonial days like Harvard, Yale, Columbia and Princeton or from those not less richly endowed, though much younger, like the University of Chicago and Leland Stanford. Then you will have a group of smaller institutions like Dartmouth, Bowdoin, Oberlin and Beloit where some of the best work is done still though the attendance is not so large; and as Daniel Webster said of Dartmouth, his own Alma Mater, 'It is a small college but there are those who love it.' Some of you have already chosen from the great group of more than forty State universities—a group which I mention with especial pride because it includes my own Alma Mater—several of whom have an enrollment of ten thousand each. You will also have a great variety to choose from in the character of the instruction given. If you are looking for science pure and applied you will naturally seek institutions like Cornell or the Massachusetts Institute of Technology; if for history or languages one like Johns Hopkins or if for subjects like international law then one like Columbia. It is no disparagement to any other country to say that America with her vast resources now offers the greatest number and variety of educational institutions.

TWO KINDS OF THEM

"I would not be fair to you if I failed to note that there are opportunities for evil as well as for good. Many American Universities are located in or near the great cities. And the cities of America like those of Europe and Asia have their dark and seamy side. Fortunately it is no longer flaunted in America and one may live there many years without coming in contact with it. Nevertheless those who seek may find it but if they pursue that side long they are not likely to find any other. If you are to utilise to the full the opportunities which your own country is providing, you will familiarise yourselves with the best in American life whether it be found on the university campus or outside of it. You will want to know the America which you will find in its churches, art galleries, libraries, museums and architectural achievements. You will want to see something of America's natural scenery and you will then understand the motto which Americans themselves have been only too slow to adopt: 'See America First.' There are now in the United States no less than nineteen national parks with a total area of nearly 11,000 square miles and some twenty-five national monuments with an area of nearly 2,000 square miles; and these include some of the most magnificent scenery, the most historic spots and the most famous memorials. Most of them will be accessible in your journeys across the continent and can be visited with little extra expense if the trip is carefully planned. You will have your vacations when excursions to those places of interest will offer no interference with your studies but on the contrary will supplement them so as to become an important part of your educational equipment. Such are the opportunities which await you and I am sure that there are few American or European youth who would not envy you in having them.

AMERICA'S OPPORTUNITY

"But the opportunity is not all yours. For my own country I see more even than for you. This gathering of students of whom you are but a part is giving my country an unique opportunity for a moral leadership. I believe that is now being recognised in other countries. I noticed only last week that the importance of sharing in this educational movement was discussed in the British Parliament.

"Such movements are by no means new in history. In the middle ages and for a long time thereafter Italy held the premier place as the torch bearer of the nations and students flocked from many lands to study at the Italian Universities. One of those institutions, the University of Padua, celebrates this year its 700th anniversary.

"At a much later period Germany held a similar place in the educational world. I can remember in my own college days how those who planned for more advanced education expected to obtain it at some German university. But that has long since passed. Few American students now go abroad except for work in special countries or in such special cases as the Rhodes scholarships at Oxford. American higher institutions have long been able to take care of graduate students and offer the most advanced courses in nearly all subjects. But now they must provide not only for their own youth but for those of the Far East. Not from China alone but from Japan and from the Philippines in great numbers come the youth who are the future leaders of their respective countries to sit at the feet of our greatest American teachers. To me that seems the most wonderful of all. For the nation like the individual is measured by the moral and intellectual influence it exerts. I would rather see my country the educator of the Far East than its conqueror.

"Such are the twin opportunities which these occasions commemorate—your opportunity for a modern all around education; my country's opportunity of moral and spiritual leadership through its training of the leaders of tomorrow in these lands of the Far East. And one of our most gifted word painters has paid this tribute to opportunity:

"Master of human destinies am I!
Fame, love and fortune on my
footsteps wait.
Cities and fields I walk; I penetrate
Deserts and seas remote, and
passing by
Hovel and mart and palace, soon
or late
I knock unbidden once at every
gate.
If sleeping, wake, if feasting, rise
before
I turn away. It is the hour of
fate,
And they who follow me reach
every state
Mortals desire, and conquer every
foe
Save death; but those who doubt
or hesitate,
Condemned to failure, penury, and
woe,
Seek me in vain and uselessly implore—
I answer not, and I return no
more!"

To Be Guests At Y.M.C.A. Today

The departing students will be guests at a reception to be given by the Y.M.C.A. at Martyrs' Memorial Hall this afternoon at 5 o'clock. Dr. David Z. T. Yui, people's delegate to the Washington Conference, will be the principal speaker.

The program will be followed by an informal social to be held at the Boys' Department of the Y.M.C.A.

CIVIL GOVERNOR NOT NEEDED, SAYS LU YUNG-HSIANG

Road Construction In Chekiang In Progress; Big Plan To Be Launched Soon

(China Press Correspondence)

Hangchow, August 8.—Plans for the construction of roads in Chekiang Province were discussed between General Lu Yung-hsiang, Tupan of Chekiang Rehabilitation and an interviewer today. General Lu stated that a definite program has been drawn up by the provincial authorities for road construction in this province. Several sections of highways have already been started, while others have been delayed till the Autumn season on account of certain practical difficulties arising out of local conditions.

Coming to the question of the civil governorship of the province, which has attracted a great deal of speculation of late Tupan Lu said he has no definite views on the matter. Gen Lu was then asked what would he do if Mr. Chu Yin-kwang former Civil Governor of Shantung who is reported to be working to secure the appointment were appointed. In reply, General Lu said that considering the present circumstances, no civil governor appointed by the Central Government would meet with the approval of the local public bodies. If a civil governor is elected by public franchise the action will be misinterpreted and would complicate matters in the general administration of the province.

"My idea, therefore, is to be passive rather than be active," said the Tupan. "Neither appointment by the Central Government nor election by public vote can now be adopted as a means of selecting a civil governor in Chekiang, therefore there is really no means whereby a man can be appointed to this office."

The interviewer inquired as to what attitude General Lu would adopt if the Central Government does appoint Mr. Chu as the Civil Governor, but no response was made by General Lu except with a broad smile.

Constitution Makers Preparing To Report

(Reuter's Pacific Service)

Peking, Aug. 9.—The Constitution Investigation Committee, of which Dr. C. T. Wang is Chairman, will meet in the House of Representatives tomorrow. When its work is completed it will report to a meeting of both Houses after which the Drafting Committee will begin its work.

HOW TO "GROW" A NEW COMPLEXION

These are the days of "hustling." In a week we see and do more than our grandmothers did in a year. We are gradually turning nature to be our servant; we use her great forces against herself. We have conquered sea and sky, now our doctors are fighting not only disease, but old age. There is talk of rejuvenating human beings by the injection of animal glands, but as yet, only the few can avail themselves of the treatment.

There is, however, one secret of perpetual youth that is in the reach of everyone. Scientists now realise that the only way of keeping the skin young and fresh is to examine Nature's methods and to find some way of imitating her.

SCIENTIFIC BEAUTY.

In order to explain the new method of keeping the complexion perpetually youthful, one must understand something of the nature of the skin. A baby's skin is always clear and smooth because the outer layer is always invisibly peeling off, and new layers are forming just as fast underneath, so that the exposed skin is always fresh, unwrinkled and "new."

For the first few years of our lives, this peeling is a purely natural process, but as we grow older, we gradually lose the power of throwing off our old soiled outer skins, so that our complexions become lined and yellow, and the new skin has no chance to show itself.

A few years ago, a scientific chemist realised that a little-known substance called mercolised wax, was exactly what was needed to "keep nature up to the mark." It appears that this substance, which is now universally obtainable, gently and painlessly assists nature in throwing off the soiled outer cuticle. The skin is thus perpetually renewed, and a clear youthful complexion can be preserved to any age. (Advt.)

A Stepping-Stone to Success

Stenography. Many leaders of industry began as stenographers. It is often a short cut to high confidential positions. You can prepare for this work in your own home. There are 293 I. C. S. Courses. Some of them are listed below.

Our office is open between 7 and 9 p.m. on Mondays, Wednesdays and Fridays for the convenience of all who are interested in I. C. S. Training.

Silk Testing House Here Rapped By New York Firm For 'Undiplomatic Ways'

Villa Bros. Contends That Local Silk Testing Co. Has Harmful Policy In Letter To Silk Association Of America

Alleging that the Shanghai International Silk Testing House is adopting a harmful policy and that the speech and circular of Mr. Douty and Dr. Cheney of the American Silk Commission are not such as to invite the sympathy of the silk people, a lengthy letter was addressed to the Silk Association of America under date of June 28 by Mr. Silvio Villa, of Messrs. A. P. Villa Bros. of New York.

The text of the letter, which was furnished to THE CHINA PRESS as a result of its publication of "the other side of the story" on August 8 by the honorary secretary of the Foreign Silk Association of Shanghai, is as follows:

"I have before my eyes the letter of Mr. Charles Cheney dated June 17 in regard to the recently opened Shanghai International Testing House, and I am painfully impressed by some statements contained therein.

"Mr. Cheney pointing to the improvements in the reeling of Canton silk fostered by the American Commission, says:

"'All through the transition period we were met by stolid, stupid and unsympathetic opposition by those to whom we should have been able to look for support and cooperation, not the Chinese, but the foreign (white) silk merchants.'

"Then he continues:

"'In Shanghai, it is the same story only much worse. American advice and appeals for an improved reeling with a sensible and convenient classification and inspection, for conditioning and testing, have been met by a cold, unyielding, unprogressive and unintelligent opposition on the part of the foreign (white) silk merchants.'

"Furthermore, he urges the American Buyers 'to see to it that we are not held back into the ways and practices of the middle ages by the middle men.'

"I am afraid that Mr. Cheney is laboring under some misapprehension and I don't think he is posted about the origins of the reported opposition to the Shanghai Testing House. On August 14, 1921 Mr. Douty made a speech before the Shanghai Rotary Club couched in such terms as to alienate him the pleasure both of the Foreign inspectors of Shanghai and of the Chinese Merchants. Again on February 13, 1922, Mr. Douty wrote a letter to the Foreign Silk Association of Shanghai suggesting a procedure for the use of the Shanghai Testing House that involved the following:

"First—An expense of Mexican Dollars 13.56 per Bale (exclusive of gauge or cohesion tests).

"Second—The practical elimination of the Silk Inspectors of Exporting Houses. The Inspectors were not to examine the silk any more, but to read the test certificates, then the silk would be packed, corded, sealed and delivered to the boat by the Testing House. As a consolation prize, the Inspectors were given the right to ask for some books of a lot if they wished to examine the Silk by their own method for color, hand and cleanliness or to make further tests to satisfy themselves before making final decision.

"The members of the Foreign Silk Association of Shanghai did not relish the suggested procedure, and I doubt very much that same would be relished by the Importers on this market.

"First of all, the charges of Mexican Dollars 13.56 per Bale is an excessive burden

"Second—There is no reason to believe that an inspection and tests made by the Conditioning House would be as good a guarantee to the Exporters and to their customers as the Inspection and tests made in the Exporters Laboratories. Most of the Officers of the Shanghai Exporters are equipped with the best mode testing machinery, not inferior to the ones adopted by the Silk Testing House and have staffs of Inspectors who have the advantage of many years experience with Silk in general, and Shanghai Silks in particular.

"Third—The Test Certificates of the Shanghai Conditioning House in as far as quality is concerned would have no more authority with our customers than the reports the present Inspectors have now; in other words, if we deliver a lot of silk accompanied by tickets showing the very best results at the quality tests and then the Customer finds that the Silk does not run well, he would simply make a claim or request us to exchange the silk, paying no attention whatever to the Tickets. We had experience of this kind for several years in the case of Italian Silks.

"A man by the name of Rosenzweig established in Milan a most complete laboratory where he used to make accurate and extensive tests on Silk and then classify the lots according to the results of said tests. Our Agent in Milan was very enthusiastic about the system, and so was the late Henry D. Klots, who spent quite some time in Milan studying it. We adopted the system and had practically all our Silk inspected and shipped to us with the Rosenzweig reports. We got into all sorts of trouble and had to discard this system entirely and go back to our usual way of inspection in our laboratories in Milan.

"The system of testing used by the United States Testing Co. Inc., is more or less the same as that of Mr. Rosenzweig and it was originally adopted at the suggestion of Mr. Henry D. Klots. The quantity of Silk tested for a lot, however, is much less.

"We feel, therefore, that if we should try to deliver silk to our Customers on the guide of the certificates of the Testing House, we would have no better success than we had in the past. I do not think that any of the Importers here would have objections to deliver Silk to their Customers accompanied by acceptable test certificates, but would want it to be understood that with the delivery of the tickets his responsibility ceases. In other words, if the Manufacturer has any trouble or loss in using the Silk, he would have to look to the Shanghai Testing House for compensation, and not to the Importer; I doubt very much if Buyers would agree to this.

"Mr. Cheney refers in his letter to the business methods of the Shanghai Silk Exporters, as 'Middle age Practices;' I would like to take exception to this statement. To my knowledge, there is no Silk Market in the world where relations between Reelers and Buyers are as correct, pleasant and business-like as the Shanghai market. The inspection of the Shanghai Private Exporters is so good, that the complaints on Shanghai Silks are much less numerous and less important than complaints on Silks of any other origin. The weights billed by the Importers to their Customers are in all cases lower than Conditioned weight plus 2 percent. Any manufacturer who has China silk in stock can check this statement by having any number of Bales tested.

"I am perfectly satisfied that the Shanghai Testing Co. is an excellent Institution and it should be promoted and supported by all interested in the Silk business. I feel, however, that the policies adopted by its promoters have been harmful and will be harmful to the success of the establishment.

"First of all, the speech and the circular of Mr. Douty and the present letter of Mr. Cheney are not such as to invite the sympathy of the Silk people.

"Secondly, the Shanghai Testing Co. is a new institution privately organised and yet untried. Like any new comer in a long established community, rather than attempting to reform overnight the trade methods of Shanghai, it should put itself at the disposal of the market and prove its merits and the advantages of its systems. The antagonistic feeling that exists in Shanghai is due to nothing else but to the undiplomatic way the Testing House has been trying to force itself on the market, not as a friendly co-operator, but as a superior tribunal come to supersede the existing business methods.

"Mr. Cheney is repeating here the mistake made by Mr. Douty in Shanghai by not trying to secure the ecoperation of Importers and Manufacturers, but by clearly passing over the head of Importers ignoring their existence, and calling the Manufacturers to action for a direct move.

"The Importers are a very important factor in the Raw Silk Trade. They finance the manufacturers by giving them Four Months Credit; they protect the Manufacturers by standing back of the Silk they deliver, and it is an injustice and a bad policy to ignore them, discarding their advice and services in the matter of the Shanghai Testing House. I do not think any of them has any objection to the Shanghai Conditioning House being used in the same way as the Yokohama Conditioning House is used in Japan. I do think everyone will have objection to the Shanghai Testing House replacing and superseding their Shanghai Inspectors. Still, this matter could be friendly and intelligently discussed and the Importers would be as valuable Agents as the Manufacturers for bringing about a better classification on the Shanghai market."

MILL STRIKE BRIEF

Workers of the Dah Kung Cotton Mill, Yangtszepoo Road, went on strike for a brief period yesterday, tying up operations for about three hours. The dispute was between the night workers and the management over the question of hours and at 6 a.m. the employes walked out and the oncoming shift refused to take up their tasks. Following some discussion the day shift went to work at about 9 o'clock. The mill employs about 1,500.

Obituary

MRS. HUGH FRASER

New has been received in Japan of the death of Mrs. Hugh Fraser, widow of the late Mr. Hugh Fraser, British Minister to Japan from 1891 until the time of his death in Japan, June, 1894. Mrs. Fraser died at the age of 70 years at her country home, Nymph's Field near Stonehouse, Gloucestershire England.

By some of the old foreign residents of Japan Mrs. Hugh Fraser is remembered as perhaps the most distinguished and brilliant of diplomatists' wives who have ever reigned over Tokio society. Her father was the celebrated sculptor, Thomas Crawford. Her mother was the sister of Julia Ward Howe, who was famous as an author and who composed the universally known "Hymn of the Republic." Her brother was the late Marion Crawford, an author of international fame.

Mrs. Fraser was an American born in Italy and educated in Italy and England. She is well known throughout the English speaking world as the author of many books the one most popular in The Far East being "A Diplomatist's Wife in Japan," which is a graphic description of her life in Japan during the years her husband was British Minister there.

REV. W. H. SEARS

Reverend William Henry Sears, D. D., for 31 years in charge of the American Southern Baptist Mission work at Pingtu, Shantung Province, died at the home of his son George J. Sears, Tsingtao, Saturday night. Impressive funeral services were held at Pingtu, so long the field of his labors, Tuesday, Dr. Sears being buried there at his own request.

Born in Chariton County, Missouri, on the fifth of January in 1865, Dr. Sears was a graduate of William Jewell College, Missouri and the Southern Baptist Theoligical Seminary, in Louisville, Kentucky. In 1891 he came to China as a young missionary, arriving in Pingtu when he was twenty-six years of age

He gave the fullness of a virile life, and around him the Pingtu Mission station had one of the most remarkable developments of any mission station in China. Numbers of churches, hundreds of schools and thousands of Chinese Christians have been under his care. They looked to Hsie Mu-si as their friend, counsellor and pastor. He made friends with gentry and officials as well as the masses and displayed conspicuous ability as an administrator.

The character of the man is best seen when it is known that his alma mater, William Jewell College, conferred the degree of Doctor of Divinity on him a few years ago and it was a year afterward before any of his friends in China heard of it from this modest man who gave 31 years of his life to the development of mission work in Pingtu, where there are no beggars and no poverty and where illiteracy has been practically eliminated through the efforts of Dr. Sears.

The late Dr. Sears is survived by his widow, who has been associated with him in his work as Pingtu, and a son, George J. Sears, one of the managing directors of Cornabe, Eckford and Company offices at Tsingtao

MR. H. G. FOSTER

Memorial services for Mr. H. G Foster, who was drowned at Poo too while in swimming during the week-end, were held at Holy Trinity Cathedral at 4:30 o'clock yesterday.

The Light Horse, of which Foster was a member, paraded, and many of Foster's friends, including many of those who were within sight when he disappeared beneath the water, attended.

NERVE STORMS.

Lightning is not more erratic than the person who suffers from nerve-storms. Though the victim is often accused of being "bad-tempered," the trouble is really one of health. Bad days usually begin with irritation on rising. Some little upset arouses a cantankerous mood, and once the balance topples all control is lost.

Nerve-storms are dangerous; the wear and tear on the nervous system is highly exhausting and debilitating to the digestion and heart; it causes also congestion in the liver and brain; and, indeed, collapse sometimes follows.

Make no mistake—nerve-storms indicate a nervous-dyspeptic state. When the digestion is perfect, the appetite is good, and food eaten keeps the nerves and blood well fed. Then such good health pervades the system that nervous disturbances are rare.

Weak, irritable, nervous victims of indigestion should tone up their nerves and strengthen their digestion with new blood. To make this new blood it is necessary to take Dr. Williams' Pink Pills, for these pills create new blood that makes you feel fit from tip to toe. You will be delighted with the keen appetite, energy and radiant good health that follows.

Chemists everywhere sell Dr. Williams' Pink Pills, or direct from Dr. Williams' Medicine Co., 96 Szechuen Road, Shanghai, $1.50 for one bottle, $8 for six bottles, post free.

Write today for a free book on The Nerves to the above address.

PRESIDENT LI AGAIN TO OFFER HIS RESIGNATION

Gen. Wang Chih-hsiang Is Sent To Parley With Tsao Kun On Premiership

(Reuter's Pacific Service)

Peking, August 9.—President Li Yuan-hung's note of resignation was handed back to him this morning. It is reported that the President will send another note of resignation addressed to both Houses in view of the fact that the Presidential Election Committee is composed of members of both Houses.

The Government has sent General Wang Chih-hsiang to Paoting fu and Loyang to discuss with General Tsao Kun and General Wu Pei-fu the question of the Premiership. It is currently reported that General Wu Pei-fu oppose the nomination of Mr. Tang Shao-yi to the Premiership but favors Dr. Wang Chung-hui. If General Wang Chih-hsiang confirms this report, it is thought possible that Mr. Tang Shao-yi's appointment will be withdrawn.

The Military Council has telegraphed to General Tsai Chong-hsun, demanding a full report of the Kiukiang mutiny and ordering General Tsai to take immediate steps to prevent further outbreaks.

Band Concert

The following program will, weather permitting, be played by the Municipal Band at the Public Garden tonight, beginning at 9:15 p.m.:

Selection, "Tangled Tunes" Ketelbey

Concert March, "Homage" Grieg

Andante, "The Dying Poet" Gottschalk

Selection, "Offerbackiana" Meyrelles

A. de Kryger,
Assistant Conductor.

Follies Actress Weds Jack Pickford

(United Press Service)

New York, August 1.—Marilyn Miller, the star of "Sally," the great musical comedy success of the last New York theatrical season, was married today to Jack Pickford, the motion picture actor, in Los Angeles at the home of Douglas Fairbanks. Mary Pickford, sister of the bridegroom, is Mrs. Douglas Fairbanks.

Miss Miller's marriage has caused a sensation in the theatrical world, and took place only after a discussion with Florenz Ziegfeld, Jr., manager of "Sally," who objected to her marriage to Pickford. Miss Miller's contract wih Ziegfeld, who has starred her for many seasons, stipulated that she should not be married without his consent. Only after several exchanges of letters, which gained much publicity in the American press, was Ziegfeld prevailed upon to give his consent to his star's marriage to Pickford.

Salt Merchants Between Two Fires

(Chung Mei Service)

Peking, August 4.—The merchants of Kiangsi are having a hard time, being buffeted between the armies of the North and of the South. Now comes the Commander of the North troops, General Tsai Chung-hsun, who is trying to force a loan on the salt merchants of the province.

His scheme is to give them bonds in the sum of $600,000 and take $500,000 in cash as full payment. The salt guild absolutely refuses to listen to these demands. They claim that their business is not strong enough to stand such a levy and that they are only keeping going by loans from the local banks.

If the loan is forced on them they threaten to go out of business. The salt guilds in the neighboring provinces are in touch with the Kiangsi people and declare if this loan is forced on them, they too will join with their brother merchants and close up so that this policy of enforced loans shall not spread.

For a Weak Stomach.

As a general rule all you need to do is to adopt a diet suited to your age and occupation and to keep your bowels regular. When you feel that you have eaten too much and when constipated, take one of Chamberlain's Tablets. *Sold everywhere.*

Rail Chiefs To Meet At Capital

(Reuter's Service)

Cleveland, August, 8.—At the suggestion of the railway strike leaders the President of the Locomotive Engineers' Union has invited 16 other railway unions to attend a conference at Washington on Friday with the object of averting the impending calamity, the collapse of transportation.

Polish Orphans In Siberia In Straits

(Reuter's Pacific Service)

Tokio, Aug. 3.—There are still more than 2,000 Polish orphans in various places in Siberia in tragic circumstances. The President of the Society for the Relief of Polish Orphans has requested the Japan Red Cross Society to help them, but it is beyond the capability of the society, ... to effect the relief of so many children, since the work would entail an expenditure of upwards of Y.1,500,000. The society has decided, with the permission of the Government authorities concerned, to repatriate 400 of the orphans whose circumstances call for the most immediate help, and 40 attendants, at the cost of about Y. 189,000. These orphans will be brought to Tsuruga from Vladivostok about August 10 or thereabouts, and will be temporarily quartered in Osaka, to be sent to Danzig by way of London by ships sailing from Kobe on or about August 22 and Sept. 5.

Economic League Formed In Tokio

(Reuter's Pacific Service)

Tokio, Aug. 3.—The inauguration of the Japanese Economic League has just taken place at the Bankers' Club. The promoters include Mr. Inouye, Governor of the Bank of Japan; Mr. Kenzo Ikeda, President of the One Hundredth Bank; Dr. Takuma Dan, of the firm of Mitsui; Mr. Raita Fujiyama, Chairman of the Tokio Chamber of Commerce; and other prominent business men. The object of the League is to recommend such economic and industrial policy as will put Japan's commerce and industries on a sound basis.

Among the resolutions adopted by the League yesterday were:

That the surplus accruing from naval and army disarmament and from administrative retrenchment should be applied to lightening the nation's burdens in taxes and in other respects.

That thrifty habits should be encouraged among the people so that the regulation of prices may be facilitated.

That investigations should be carried out with the object of rectifying any irregularities that exist in the system of taxation, national estimates, and other aspects of national finance.

FUND FOR STUDENTS

(Reuter's Pacific Service)

Peking, August 8.—It is reported unofficially that the Diplomatic Body approves the allocation of $500,000 from Customs revenue for the relief of Chinese students abroad and in the eight Government schools.

MEIJI NINE IS DELAYED; DUE HERE AUG. 16

Illness To Players Hold Up Team In Japan On Eve Of Sailing

WILL PLAY 10 GAMES HERE

Three Planned With Shanghai, Three More With Fort Mills

The Meiji University baseball nine which was expected to arrive here yesterday and to open a series with the big Shanghai American nine today, is detained in Japan due to illness of several of their players. The nine, according to their manager who came in yesterday, will not arrive here until Wednesday, and will not be available for games with Shanghai until the 18th.

The delayed arrival of the crack Japanese team upsets the schedule of games arranged by Manager Gallop Tuesday. It has been planned for the Japanese University men to open a series today, and to play a second game on Sunday against the local nine, with games Monday and Wednesday against the Fort Mills team, champions of the Phillipines which arrives here tomorrow. A new schedule will probably be arranged today and announced tomorrow.

The Meiji nine, due to the illness of some of their men prefer to play a Japanese nine here for their opener, on the 17th, against an All-Star local Japanese team. They expect to have found their land-legs by the 18th for a mixup with Shanghai.

WILL PLAY EVERY DAY

Their manager said that he was prepared to play a three game series with Shanghai and three games with Fort Mills, though with the prospect of at least two more games to be played with local Japanese nines in his 10-day stay here he hopes that the schedule may be arranged to give him not more than two successive games against Americans, with a resting game in-between against the Hongkew Japanese nines.

The new schedule will probably look like this:

Aug. 18 4:30 p.m. Meiji vs. Shanghai.

Aug. 19 4:00 p.m. Meiji vs. Ft. Mills.

Aug. 20 3:00 p.m. Shanghai vs. Ft. Mills, Meiji vs. Japanese.

Aug. 21 4:30 p.m. Meiji vs. Ft. Mills.

Aug. 22 4:30 p.m. Meiji vs Shanghai.

Aug. 23 4:30 p.m. Shanghai vs. Ft. Mills.

Aug. 24 4:30 p.m. Meiji vs. Ft. Mills.

Aug. 25 4:30 p.m. Meiji vs. Shanghai.

Games after the latter date will depend on the availability of either of the visiting teams. In the foregoing schedule Meiji will meet Shanghai three times, Fort Mills three times and local Japanese twice. The schedule will need revising when the listed games are played off, especially since the Yamaguchi Higher Normal college nine is due here for a series of two or more games commencing on Monday, August 28.

THE WEEK END GAMES

Fort Mills which is due here tomorrow from the North will have to bear the brunt of the week-end and the early games next week. Saturday and Sunday's games will probably be against the champions of the Philippines, with third and fourth games for Tuesday and Wednesday of next week, after which, with the 17th an off day, the proposed schedule may be begun.

Cy Wilhoit, for several years captain and first sacker of the local nine will probably be seen in a Shanghai uniform for the next two weeks or so. Cy is taking a leave of absence from his post in Tientsin, and being still an up-to-date member of the local club is eligible to play in any games during his stay here. He has been playing wonderful ball on the civilian nine in Tientsin, having been selected as first sacker on the All-Star Team of Tientsin, and will most likely find a berth in the local lineup during his stay here. Wilhoit will likely work at first base while Kingman is pitching, and will be given an outfield garden when Harry is covering the initial bag.

Keep It Handy.

Immediate relief is necessary in attacks of diarrhoea. Chamberlain's Colic and Diarrhoea Remedy should always be on hand. *Sold everywhere.*

ROWING CLUB SWIMMERS HOLD MIDWEEK EVENTS

Following are the results of the weekly swimming events held at the Rowing Club last night:

100 YARDS FINAL

Sir Thomas Lipton To Challenge Again

(China Press Service)

New York, August 8.—Sir Thomas Lipton, the famous yachting enthusiast, will make another effort to wrest the America Cup from its American holders. After making four unsuccessful attempts word was received today that Sir Thomas would arrive here in September to make a final challenge to the holders, the New York Yacht Club.

Joe Lynch

BY knocking out Johnny Buff in New York, Joe Lynch regained bantamweight title, but it cost him $9,150.35. Lynch did not receive one cent from the purse, as Buff, in signing for the fight, made a demand that he receive $30,000 if he lost the decision. Lynch, therefore, not only lost his end of the purse, but had to dig down for nearly $10,000 of his own. This is believed to be the first time on record a fighter had to pay for his title.

NOTTS XI TAKES STRONG PLACE IN COUNTY CRICKET

(Reuter's Service)

London, Aug. 8.—At the Oval Notts beat Surrey on the first innings.

At Canterbury Hampshire beat Kent on the first innings.

At Worcester Essex beat Worcestershire on the first innings.

At Bristol Somerset beat Gloucestershire on the first innings.

At Manchester Yorkshire beat Lancashire on the first innings.

At Birmingham Warwickshire drew with Derbyshire.

At Northampton Northamptonshire drew with Leicestershire.

At Brighton Middlesex beat Sussex by 21 runs.

Notts defeating Surrey puts quite a different complexion on the County Championship, which up to the present had been looked upon to rest between Yorkshire and Surrey. The latter's chances are now well nigh extinguished. Notts is playing with such splendid consistency that it constitutes a strong menace to Yorkshire's prospects.

Police XI Meets Club 'A' Saturday

The police announce a strong side to oppose the S.C.C. on Saturday afternoon, in a match which will be played on the Recs field commencing at 2 o'clock. The following are the selections:

Capt. E. I. M. Barrett, Major Wainwright, Major Bourne, Capt. Martin, Messrs. W. Beatty, J. A. Quayle, G. Sale, J. A. Isaacs, W. E. Fairbairn, C. Doyle, J. M. Watson, and reserves J. F. Gabbutt, C. J. S. McDonald, and J. Carnell.

PARSEES SCORE 163 RUNS FOR 6 AGAINST S. C. C.

The Parsees scored 163 for six wickets against an S. C. C. eleven yesterday afternoon on the Club field in the first half of a one innings match. Divecha was best bat with a 76.

The summary follows:

PARSEES

Bheora, c. Daniel, b. Widdup	18
Shroff, b. Widdup	13

SEMI-FINALS MEN'S DOUBLES ON TOMORROW

Toussaint And Carnavarro Meet Sheldon And Wade At S.C.C.

FINE CONTEST PROMISED

Parbury And George To Play Roberts And Dawson At French Club

The four best tennis pairs in Shanghai will meet tomorrow in two matches, one at the Country Club and the other at the Cricket Club, to decide semi-final honors. Parbury and George met Roberts and Dawson at the C. C. courts, while Sheldon and Wade play the title holders, Toussaint and Carnavarro on the S. C. C. courts. Both matches commence at 4:45 o'clock.

The Men's Doubles for 1922 is drawing to the final stages with much speculation rife as to which pair may win. Toussaint and Carnavarro are conceded everything on their experience, their splendid adaptability to any condition, and their wonderfully careful play. Yet other players have come up through the season's play

Sores from Wrist to Elbow
"Completely Healed"

Our portrait is of Mr. John Kidd, of 17, Mill Lane, Kilmarnock, Scotland, who writes:—"My right arm became covered with sores from wrist to elbow and was useless for over two years. I tried different ointments and so-called cures, but they never did me any good. Then I tried your 'Clarke's Blood Mixture,' and the sores soon began to heal up and power began to come back to my arm, so I persevered with the Mixture, and after having four bottles am glad to say my arm is completely healed up and I have now the full use of it." In a further letter over a twelvemonth later Mr. Kidd writes: "I have had no return of my complaint; my arm is still as sound as a bell and never troubles me in the least."

CLARKE'S BLOOD MIXTURE, by reason of its remarkable blood purifying properties, can be relied upon to give speedy relief and lasting benefit in cases of Eczema, Bad Legs, Abscesses, Ulcers, Boils, Pimples, Eruptions, Piles, Glandular Swellings, Rheumatism, Sciatica, Gout. Pleasant to take and free from anything injurious. *Of all dealers. Ask for and see you get—*

Singapore Rubber Auction

Singapore, July 26, 1922

There has been a slight improvement in all markets during the past week partly attributed to the demand for spot goods in New York by manufacturers in view of the possibility of a railway strike. London touched 7 7/16d. for spot and New York 15 cents. The large stocks held in London apparently prevented further advance, and prices have again sagged. The local market has remained steady to firm at prices well above the parities of the consuming markets.

322 tons were put up for sale at to-day's auction, but only 490 tons were offered, and 382 tons changed hands.

The large quantity withdrawn consisted mostly of Standard Sheet. Bidding was good and with a good all-round demand prevailing, fair prices were obtained.

No lots of Awarded Singapore Standard Sheet were sold: buyers were bidding 25 1/4 cents and sellers asking for a slightly higher price.

Sheet equal to Standard found ready buyers at prices slightly above last week's.

A fair amount of interest was taken in Off Quality parcels.

Only two lots of Awarded Singapore Standard 1st Latex were sold; those lots being packed in cases realised 26 cents.

Crepe equal to Standard was easily disposed of at prices showing 1/8 cent advance.

Off Color Crepes were also in good demand.

Fine Brown, Dark and Barky Crepes maintained their good sale.

Meyer and Measor.

Hongkong Shares

Messrs. Moxon and Taylor of Hongkong write as follows in their weekly report on the share market dated Hongkong, Aug. 4:

We have had quite an active cash market during this week and a fair amount of forward business has also been put through.

The Shanghai market remains quiet with very little doing.

Rubber remains stagnant.

The following are the principal alterations since last week:

Hongkong Banks:—A fair amount of shares have changed hands at $885 but at the close there are sellers at $882 1/2.

Unions:—Have been quiet during the week with a few sellers and close steady at $202.

Hongkong Lands:—Have firmed up with buyers offering $217 but without enticing sellers.

Humphreys:—Have been the medium of considerable business and close firm with buyers at $12.35 after sales at $12 1/2.

Cantons:—Have firmed up to $445.

Hongkong Fires:—Are wanted at $385.

Douglases:—Have come to business at $55 but close slightly easier with buyers at $53.

Hongkong Hotels:—Are in fair demand at $21 1/4 Old and $10 3/4 New without attracting sellers.

Dairy Farms:—Are also in good demand and close very firm with buyers at $22 1/2 Old and $11 1/2 New.

Hongkong Wharves:—Firmed up at the beginning of the week but close rather easier with buyers at $140.

Hongkong Docks:—Have been the medium of considerable business at rising prices and close very firm at $164 cash.

Hongkong Trams:—Have also firmed up during the week and could be placed at $13.70.

China Providents:—Have been up and down and close very firm with buyers at $18 3/4 cash.

Semi-Finals Men's Doubles On Tomorrow

(Continued from Page 5)

so that the season's doubles honors are still in doubt.

Sheldon and Wade, a newly formed couple have been playing a strong and clever game this season, both on attack and defensive, and with flashes of brilliant and fast tennis have come nicely through to the right to meet the Champions in the semi final. Wade plays with better confidence than before, and with Sheldon playing his beautiful overhead game, the pair must be considered until the final point is tolled.

In the lower half of the draw Parbury and George have a strong claim for consideration. Parbury has won the singles championship; with Humphreys he has taken the Hong Doubles honors, and since coupling up with George in the

Washington Cop Wins College Degrees

William D. Haislip

TRAFFIC Policeman William D. Haislip, of the Washington (D. C.) police force, is a scientist, lawyer and patent expert, yet for the present he chooses to chase speedy motorists. "Ask Haislip; he knows," is the motto of the Washington police force. He holds degrees from the National University and the Virginia Polytechnic Institute. He also began a law course at Georgetown University, but did not finish it.

Men's Doubles has continued his splendid tennis. He and George have defeated Tanaka and Okada, the strongest Japanese pair in a two-day match, and have followed in the third round with a three-set win over Sturton and Brown. George, who started not so well in the tournament is recovering rapidly from his recent illness and is holding up better and better to his partner. The pair are certain to give a good exhibition in further play.

Roberts and Dawson, the fourth pair are also newly combined. The former is the former teammate of Pott, former singles champion of Shanghai. He is a tricky and proven, a clever and a dangerous player. Dawson, while younger, promises well. The pair's win over da Silva and Leitao in the third round was decisive enough to rank them as contenders.

Tomorrow's semi-finals will see some of the best doubles tennis that has ever been played locally.

IODISED THROAT TABLETS
Allay all irritation

THE General Public is hereby notified that supplies of "IXL" IODISED THROAT TABLETS, the remarkable new throat remedy that is now being so largely and successfully prescribed by physicians in Great Britain, are now being made available for residents in China.

Representing the latest advance in scientific throat medication these tablets, by reason of their Iodine content, are indubitably superior to any other pastilles or tablets that have yet been evolved by scientific research.

Their use is positively indicated in all cases of Sore and Ulcerated Throat, Hoarseness, Quinsy, Throat Catarrh, Tonsilitis Laryngitis, etc.

As a highly efficient throat disinfectant when epidemics are rife, IODISED THROAT TABLETS indoubtedly excel any other preparation yet put upon the market.

No malignant Diptheria, Influenza, or other germ can find lodgement on a membranous surface that has been subjected to the peculiar antiseptic influences of these tablets.

Pleasant to the palate, and allaying all irritation, each tablet, as it slowly dissolves in the mouth, releases, in harmonious combination with other fine quality medicaments, a specific quantity of the pure Tincture of Iodine, to soothe, heal, and sterilize the inflamed area.

WARNING:—All cartons of the genuine and original IODISED THROAT TABLETS bear the "IXL" trade-mark, and each tablet is embossed with the letter "A." Reject feeble substitutes.

All first-class chemists supply "IXL" IODISED THROAT TABLETS.

AYRTON, SAUNDERS & CO., LD.,
9A Kiangse Road, Shanghai.

Tenders Invited for Purchasing the Valuable Properties of the China Merchants' S. N. Co.

In accordance with the resolution passed by the Board of Directors of the above company at their last meeting, tenders are invited for purchasing the following properties:

1. Three buildings in Bubbling Well Road, with land, total area 12m 5f 91, B.C. Lots 2136-7, Municipal Nos. 121, 121A, 122. The buildings Nos. 121 and 121A now occupied, lease expires on the 1st day of the 9th moon of the 12th year of the Chinese Republic.

2. Four godowns in Broadway, total area 3m 7f 61, B.C. Lot 8543, Municipal Nos. B25, A29, 30, C29. All occupied. Godowns Nos. A29, B29 leased to the Nanyang Cigarette Co. and will be vacated on April 1, 1923. Godown No. 30 to Babani Co. and No. C29 to Dieden Co. Both leases expire April 30, 1924.

The minimum offer for the first lot Tls. 140,000 and that for the second Tls. 120,000. All sealed tenders must be sent in before the 14th prox. and will be opened in the presence of Directors. Only the highest bidding will be accepted and, when accepted, the bidder will be notified of the same by writing. On the next day he will be required to pay 10 percent his tender price, leaving the balance to be paid in a week's time. If the said balance is not forthcoming when due, he shall forfeit not only the 10 percent bargain money but the privilege of making the purchases, which has then to go to his approximate bidder. All tenders must be made for the two properties together. No separate tenders will be accepted.

No. 4 Hold 32457 cu. ft No. 1 Tween dks. 17131 cu. ft (Frozen meat capacity 14560 cu. ft.) No. 2 Tween dks. 22908 cu. ft. (Frozen meat capacity 19180 cu. ft.) No. 3 Tween dks. 16238 cu. ft. No. 4 Tween dks. 18604 cu. ft.

PRESENT CONDITION: Excellent. Ready for immediate service and equipped with boats radio outfit; outfit of blocks and lines; hawsers; ground tackle cabin furniture; galley outfit ovens; refrigerators; auxiliary machinery spare parts; canvas outfit; awnings; windsails; stay sails; large assortment of hand tools, etc.

(A list of articles of equipage etc. to be left on board and sold with the vessel may be had on application to the U. S. Navy Purchasing Officer, 20 Whangpoo Road, Shanghai, China.

The sale will be for cash to the highest bidder, who must remove the vessel, at his own expense, from the limits of the Naval Station within such reasonable time as may be fixed by the Captain of the Yard, Cavite.

Proposals must be submitted in a sealed envelope addressed to the Commandant, Naval Station, Cavite, P. I., endorsed "PROPOSAL FOR THE PURCHASE OF THE CELTIC"; and each proposal must be accompanied by a cash deposit or a satisfactory certified check for the full amount of the bid, or by a bond equal to the full amount of the bid and an additional cash deposit or satisfactory certified check for not less than 10% of the bid.

Apply to the U. S. Navy Purchasing Officer, 20 Whangpoo Road, Shanghai, China, for forms of bid and bonds; additional information regarding the terms of sale, etc.

Apply to the Captain of the Yard, Cavite, at 9:00 A. M. of any day (except Saturdays, Sundays and holidays) prior to the sale to examine the CELTIC.

The right is reserved to withdraw the vessel from sale or to reject any or all bids.

By direction of the Secretary of the Navy.

W. M. CROSE,
Captain, U. S. Navy,
COMMANDANT.

MORE NECESSARY THAN A WATCH

Nearly every disease has a signal in the rise or fall of temperature. Merciful nature provides it for your information. Even a one-degree temperature, above or below normal, often reveals the nature and extent of an impending attack.
An accurate Clinical Thermometer, which will not vary even a fraction of a degree, should be in every household.
"ZOLOX"
CLINICAL THERMOMETERS
are preferred by doctors, nurses and those who know the great importance of accuracy. Every "ZOLOX" is guaranteed in its accuracy, and registers in a half a minute. Each is provided with a lens front which makes the reading easy. Each has a special focusing device, so you can adjust the lens front immediately. The "ZOLOX" is made of specially annealed glass, and supplied in a metal case.
Obtainable at all dispensaries.

TOMORROW

The tender Gutsiam conveying passengers and hand baggage only, on board the P. & O. s.s. Sardinia, for London will leave the Customs Jetty at 10:30 a.m.

British Rum Boat To Be Seized By U. S. For Test Case

(Reuter's Service)

New York, August 8.—New York's "Prohibition Navy," consisting of a former submarine chaser and engaged in combating liquor smuggling in the neighborhood of the port, has put to sea with orders to arrest the British schooner Minnie Wallace, whether found in territorial waters or not.

The Prohibition authorities state that they have evidence that the Minnie Wallace sold 100 cases of whisky to smugglers, who were captured trying to land it in New York on Sunday night.

The Deputy Surveyor of the Port of New York today stated that the Government was determined, if the Minnie Wallace should be captured on the high seas, to make it a test case to decide whether a vessel might not be seized when it could be proved that she had been used for the purpose of violating the laws of the United States.

Mokanshan Shows Fewer Inhabitants

Mokanshan, Aug. 7.—The following officers and members of the Mokanshan Board of Directors were elected for the year 1923:

President, Rev. J. V. Latimer, D.D.; Vice-President, Rev. E. Pilley; Secretary, Mr. Ralph M. White; Treasurer, Rev. J. M. Blain, D.D.

Board of Directors: Miss Virginia Atkinson, Mr. H. R. S. Benjamin, Rev. C. J. Bushey, Mr Geo. B. Fryer, Rev. H. H. McMillan, Miss Stella Relyea, Rev. W. Robbins, Rev. H. H. Taylor, Rev. T. Thomas, Dr. A. W. Tucker, Mr. T. C. Tsu and Rev. A. F. Ufford.

The customary census was taken August 1. A considerable decrease is recorded, the total population being 909, as against 1,218 last year. The number of British residents has decreased by more than one-half. Fourteen houses are reported as unoccupied. A tabulation follows: By nationalities—American, 344; British, 133; Chinese, 76; French 9; Swedish, 7; Russian, 6; Bavarian, 2; Czecho-Slovak, 3; German, 1; Korean, 1.

Japan To Save By Reducing Armies

(Reuter's Pacific Service)

Tokio, August 8.—The Minister of War has issued a statement to the effect that army retrenchment during the next 10 years will amount to Yen 400,000,000. Though the retrenchmen in the next fiscal year will probably not exceed Yen 26,000,000, the succeeding years will give an average of Yen 40,000,000.

The plan involves a reduction of 1,800 officers, 56,000 men and 13,000 horses, being, in effect, a reduction by five or six divisions.

The conscriptional period will be reduced by three months, which, the statement declares, is the utmost possible.

Urge Chinese Labor For Mandate Lands

(Reuter's Service)

Geneva, August 8.—The report of the Permanent Mandates Commission was read at the plenary session of the Council of the League of Nations today.

It noted that, with regard to mandatory territory in the Pacific owing to the shortage of native labor, mandatory Powers felt obliged to import Chinese male labor, a step which, in the opinion of the Commission, was attended by some danger to the native population. The Commission expressed the hope that the question would be more closely considered in the future reports of mandatory Powers.

REX BEACH'S

FAMOUS STORY OF THE NORTH

"THE GIRL FROM OUTSIDE"

A REGINALD BAKER PRODUCTION

Rex Beach has gone back to the scene of his first and greatest success in "The Girl From Outside" a film version of his story, "The Wag Lady." The picture was directed by Reginald Barker and the leading actors are Clara Horton and Culien Landis. It is cleverly put together, the smiles and tears being almost evenly divided. The characters are all in the hands of competent players. Rex Beach knows Alaska, and every scene is reproduced with convincing thoroughness.

The girl who gives the story its name lands in Alaska an orphan, her father dying on the trip from Seattle. She is befriended by a band of crooks, five in number, and her influence over them reforms the entire gang. The manager of a trading company becomes interested in her and finds that the owner of the leading barroom in the town wants to get the girl into his place. He has already trapped the manager in a mine scheme, but The Curly Kid, himself in love with the girl, gives his life in a successful effort to clear the path to happiness for June and his rival.

Oh! how she can dance! You never saw her equal!

The Ricsha Men

Editor, THE CHINA PRESS

SIR: On April 10 last I published a letter in the Press relating to Trams and Traffic in the course of which I pointed out that the contributions made to Municipal Revenue by the Ricsha men in the form of License Fees for the year 1921, amounted to:—

$314,000

Incidentally, the contribution made by Wheelbarrow and Handcart Coolies amounted to:—

$146,000

The Tram Monopoly contributed in Royalty:—

$101,005

For the purposes of this letter no particular importance is attached to the Tram Monopoly figure beyond its usefulness as a guide in judging the magnitude of public revenue derived from that section of Labor represented by the Ricsha men.

This figure of $314,000 contributed to revenue by this starving class of men is not the total amount however, as a very large sum is also derived annually from the system of Police Station Fines, operating under the system of "Bail."

During 1921, the number of Ricsha men coming before the Mixed Court was 27,000.

Of the total number of persons charged before that Court, 48 percent were Ricksha men.

In addition to this army of misery 31,759 Chinese were "apprehended and not charged," but how many of these were Ricksha men I have no means of ascertaining. The major proportion, probably?

Nor can I precisely ascertain the amount of money which was taken by the Police and the Mixed Court from this starving class in the shape of Fines and "Bails," but it is, undoubtedly, very large indeed running into many thousands of dollars.

To round off these figures and present the matter as succinctly as possible I may mention that of the 8,000 Public Ricksha Licenses authorised by the Police during 1921:

3,268 were Confiscated.
7,840 were Suspended.

So we arrive at the following percentages of authorised Public Rickshas, that:

40 percent were Confiscated,
98 percent were Suspended.

I think the foregoing figures amply bear out the completeness of the policy of "rigorous police action" which the Commissioner of Police writes of on page 48A of the Municipal Report for 1921.

My purpose, however, in writing these lines is to try and gain the attention and, I hope, the sympathy of the Chairman and his colleagues on the Council towards a definite survey and consideration by our governing Authority of the grievous state of affairs now existing in regard to these Ricksha men.

The streets of Shanghai are filled with ragged, starving, haggard men toiling terribly in all weathers as beasts of burden. This terribly hardworking class of men are treated as pariahs, and year in year out, are subjected to a reign of terror and tyranny which, for myself, I can only regard as a deep stain upon the economic and social administration of Shanghai.

And now, within the past few days, a few hundreds of these wretched beings have gone on "strike," and are making their feeble protest against the misery and hopelessness of their conditions.

From the Statement issued on their behalf it is clear that the bulk of their misery is directly caused by economic considerations which are, or certainly could be, directly under Municipal control.

They tell us, for example, that a new Ricksha costs $120, and that when they lose it the Owner requires them to pay $150—irrespective of whether the ricksha is old or new?

They tell us, again, that for this ricksha costing $120 they have to pay in daily hire throughout the year a sum of $300?

I know, as a fact, that the first lay-down cost of these rickshas is very much less than $120, when made in quantity, but the huge disparity between the annual hire of $300 for a ricksha which costs not more than $120 is a fact which discloses a condition of affairs in the economic daily life of Shanghai deserving of serious attention.

Especially so as the actual earnings of these starving and wretched men are only a few cents a day, and the dire extent of their misery and poverty can be guaged by anyone with a pair of eyes and humane understanding. Their emaciated bodies, their haggard and drawn visages, their uncanny dashing hither and thither when there is the faintest chance of a "fare" speak only too eloquently of the dark stain of stark wretchedness which is in our midst.

A few hundred men are now "striking" against the enterprise known as "The Star Ricksha Company" and they tell us that the Proprietor of that concern, a Mr. Cohen, makes a huge fortune every year out of his exploitation of human flesh and blood.

Mr. Cohen is permitted by the Municipality to have Licenses for over 3,000 Rickshas, I believe, and as he lets his rickshas to sub-contractors at 75 cents a day (small money), one finds, by the simple process of multiplication, that Mr. Cohen's yearly revenue may amount to anything up to about $700,000, out of which he has to pay his charges and expenses. It is quite clear, therefore, that vast fortunes are being made by a few individuals out of the toil and sweat and misery of many thousands of starving men, these human beasts of burden we see in the streets? I say, distinctly and firmly, *that this is a state of affairs which is a menace and a danger to the Community*

We have seen the miserable masses of Russia rise against the degradations of their wretched lives, and we know that starving men who have nothing to lose and all to gain, can be driven to extremity by the lash of Misery. I say, distinctly, and with a sense of responsibility, that the conditions of the Shanghai Ricksha man's life—aggravated by a rigorous and almost ruthless Police supervision—invite Bolshevism, and justify Bolshevism. I am one of those who wish to avoid the calamitous effects of Bolshevism by the practical and common sense method *of removing those Causes* which invite, encourage, breed, and bring Bolshevism into active being.

I write this letter with this specific purpose in view, and as I have said, I hope that the Chairman and his colleagues on the Shanghai Municipal Council will think about that which I now bring to their immediate attention.

Having outlined the existing conditions, it is my duty to suggest a remedy, which I now do.

I suggest that the Council, preferably in collaboration with the French Council, consider the appointment of a special Commission of citizens composed of Foreigners and Chinese, with full powers and facilities for making an exhaustive study and report on the whole question of the Ricksha trade and the conditions of the ricksha-pullers' labor and lives.

I am prepared to act on that Commission and to give the whole of my spare time to its work, as well as my utmost endeavors towards detail and thoroughness, should the Council do me the honor of inviting me to serve.

The Council control the situation in regard to the exploitation of this class of wretched men by the circumstance that they can control the issue of their Licenses to the Mr. Cohen's of the trade. As I see it at present, a remedy and an alleviation for these men lies right to the hand of the Municipality.

Many, many thousands of dollars are taken from the Ricksha men every year in the shape of Fines and "Bails," and since it is rather an ignoble thing to profit thus from the threadbare pockets of starving men, I suggest that these large sums, instead of going into general Municipal funds, should be earmarked for the particular benefit and alleviation of the very wretched people who are compelled to pay them. In plain words, that the Municipality go into the Ricksha trade itself and hire rickshas to the men direct.

The initial capital for this will be the fines and monies which have been paid by the men themselves, and their vehicles can be controlled and hired out to them at their true economic value.

Thus, this deserving class of Labor may have some chance to improve their lot, as well as to obtain a fair share of the fruits of their most useful labor. At present, it is all too plainfully evident that they can do neither of these things.

Apart from any humanitarianism, I put it to business men engaged in supplying various commodities to the Chinese masses in Shanghai that here is a proposal full worthy of their vigorous support.

Regard the Cigarette and Piece Goods trades, for example—any increase in the purchasing power and well-being of fifty thousand Chinese coolies and their families in the Shanghai district, will be reflected immediately in their ability to purchase the luxury and solace of Tobacco, and the equal necessity of clothing materials. I need not enlarge upon the economic wisdom, as distinct from ethical and social desirability, of dealing with this question speedily and removing those causes, which, it is obvious, are a festering and open sore in the body politic.

I trust that the Councils of both divisions of Shanghai will seriously consider appointing a Public Commission on the lines I have indicated, and if they will do me the honor of inviting me to serve upon it, I will devote to it my spare time and what ability I possess.

If by such efforts one may benefit, and perhaps uplift, many thousands of suffering and very miserable human beings it is work well worth doing, and so, in closing, I trust those who may read these lines will not be inclined to scoff too readily.

The conditions under which the Ricksha men toil and struggle are pitiable to a degree, and it is the duty of intelligent and more fortunate men to do what they can to alleviate their lot and reduce their miseries.

I am quite in earnest about this matter and propose to send copies of this letter to the Press of Great Britain, North America, and Japan. The time has come to say that the wealthy community of Shanghai must cleanse its streets and byways of these starving, haggard, harried and persecuted masses of men who toil tremendously, who are the servants of all in foul weather and in fair—men who, because of their ignorance and their weakness are treated as pariahs.

The time has come to put an end to this state of affairs, and it is to the Chairman and his colleagues on the Council that we must look and render support if they will take the necessary action.

These Ricksha men are a hard working and deserving body of laborers who are entitled to humane treatment, entitled to humane economic conditions, which the disclosures of their recent Statement to the Public show that they do not get, and have not received. I am, etc.,

W. BRUCE LOCKHART.

Shanghai, August 8, 1922.

Teething Children.

Teething children have more or less diarrhoea, which can be controlled by giving Chamberlain's Colic and Diarrhoea Remedy. All that is necessary is to give the prescribed dose after each operation of the bowels more than natural and then castor oil to cleanse the system. It is safe and sure. Even the most severe and dangerous cases are quickly cured by it.

Sold everywhere.

Japanese Naval Construction

The naval treaty of the Washington conference did not limit the number of light cruisers, flotilla leaders, destroyers and submarines. Competition was forbidden in only two types of vessels, capital ships and airplane carriers, as to which ratios were set. It was, however stipulated that no auxiliary vessels should exceed 10,000 tons, nor carry guns of more than 8-inch calibre. Every nation represented at the conference is free to build as many of these auxiliary types as it desires. According to what is called in Washington "the very latest" naval intelligence survey of the programs of the five signatory Powers, Japan is outbuilding her associates, and this is "viewed with alarm."

The figures furnished in Washington show that new British construction is almost at a standstill. Japan is credited with nineteen light cruisers, fifty "first-line" destroyers twenty-three "first-line" submarines, and fifty-two "of tonnage unknown to American Naval Intelligence officers." As comparisons are made between the American and Japanese programs, the smaller construction of the third-rate naval Powers France and Italy are of no consequence. It is said that naval officers are "convinced" that "Japan is gaining an advantage over the United States with respect to light cruisers and submarines." Japan has an unassailable right to do that if she can. The remedy would be to build more ships of those types to fly the American flag, if the General Board of the Navy could make out a case for the necessary appropriations.

A calculation is made by, or for the Navy Department that as the United States is building ten light cruisers and retaining twelve, and as Japan is building fifteen and retaining eighteen, the totals will be: Japan thirty-three, the United States twenty-two. Of submarines there is this count: The United States 124, Japan 108. American naval officers maintain that the 5-5 ratio for capital ships should be extended to light cruisers, destroyers submarines and other auxiliaries. This is sound policy in view of the fact that the United States has bound itself not to create a naval base at Guam nor to improve the Philippine fortifications. Of destroyers the United States has more than an adequate number. Brassey's Naval Annual for 1921-2 gives the United States 318 destroyers, including forty building when the table was made in December 1921. Some of the older ships are classed as obsolete. Those built during and since the war are the best afloat. Brassey's credits Great Britain with 191 destroyers including those oosolete, and Japan with ninety-four (ten building). The United States is so much stronger in this type than Japan that too much may be made of her light cruiser and submarine program. Moreover, the United States has no intention of suspending cruiser and submarine construction.

Congressional Cabinet

BY SIDNEY E. MEZES

The revival of the discussion of measures looking toward an easier and more natural co-operation between the executive and legislative branches of the Federal Government is timely and important; for the last few years especially have shown that under our present practices such co-operation is difficult, and that the public business, growing rapidly in complexity, is likely to be seriously hampered if something of the kind is not done. President Harding and his advisers are to be congratulated on taking the matter up for consideration.

All the discussions I have seen approach the problem from one side only, and have in mind giving Cabinet members a voice in the deliberation of the two Houses of Congress by legislative action, or both a voice and a vote by constitutional amendment.

But the needed co-operation might be effected—though this plan has not, I think, been suggested before—if the President selected his chief advisers, or Cabinet, from the membership of Congress, a procedure the letter of the Constitution does not forbid, and that would require only minor legislation, if any. The Cabinet is not mentioned in the Constitution, nor established by law; it is merely an advisory body brought together by the President and existing at his pleasure, and the President has ample authority to choose his chief advisers and organise them as a body in such ways as may seem best to him and most conducive to the public interest.

If this is the case, there is no legal obstacle preventing the President from choosing members of Congress as his senate Committee on Foreign Affairs, for instance, as his chief adviser on foreign affairs; the Chairman of the appropriate committee to the House or Senate as his chief adviser on financial affairs, and so on down the list. Moreover, he could instruct the heads of the executive departments to be guided by the directions he transmits through his Congressional advisers for the various departments, and could gather these advisers together as his Cabinet.

Under such an arrangement policies would be determined by the President and his Congressional advisers and the present heads of departments would become Executive Secretaries charged with the loyal and effective carrying out of such policies.

Naturally, no President could well, or would wish to, put such a plan into operation without the consent of the executive heads of departments; indeed, it is not likely that the plan could be put into operation unless these heads of departments agreed to it before their appointment, and unless the men selected for such positions had been chosen with a view to their fitness to exercise the diminished functions that the new status would contemplate.

Whether the change would result in a wise procedure, whether any President would be willing to adopt it, and whether the members of Congress involved would accept it, are all open questions. But that the plan is constitutionally possible and that it would establish a close co-operation between the Executive and the legislative branches of the Government is, I think, clear.

Personally I do not approve the plan, and am outlining it partly as an overlooked possibility that may provoke discussion and partly in order to bring to the fore the relationship between the Executive and the Congress that will in time, as I believe, develop, in fact if not formally, if heads of departments are given a voice in Congressional deliberations. It seems plain that a Congressional Cabinet would be highly undesirable under a Constitution that does not authorise the Executive to dissolve Congress and appeal to the people in case of need.

As I read our history, the people have been better served by their Chief Executives, State and Federal, than by their legislators; of the two classes of officials, the former have, on the average, been broader, abler braver and wiser; and they have as a rule, quite properly, succeeded better in winning and holding the people's confidence, especially as the country and its problems have grown in complexity. What the country needs is not an increase in legislative power, but an increase in the authority of the Chief Executive to act freely and with reasonable promptitude in the public interest without the endless and paralysing friction of petty hamperings, and in his certain accountability for the results that ensue.

"THE SECRET OF SUCCESS"

Many people are looking for it in vain. In the Aerated Water business, it is easy to find, and may be expressed in one word "QUALITY." If the quality is not right, all your other efforts are wasted. For that reason we buy everything used in the preparation of our Aerated Waters of the best quality only, and we invite an inspection of our books to prove it.

Another point with us, of equal importance, is that everything in connection with the preparation of our Aerated Waters is

"ABOVE BOARD"

We do not want to shut ourselves in within a high wall while working, and we have no secrets. If you care to visit our factory at any time, we shall be pleased to show and explain everything to you. It will surprise you to see the infinite care taken to ensure the purity of our Waters.

Support the officers of the Health Dept. by seeing for yourself as well.

Why The Glory Of Noon Differeth From That Of Sunset

BY GARRETT P. SERVISS
(Eminent Astronomer and Authority on Subjects of Scientific Interest)

"I was disappointed when you did not fully answer your correspondent who asked about the redness of the moon when near the horizon. Won't you please discuss in detail the redness of the sky at sunrise and sunset and its blueness at other times, and the color variations of moon and sun when near the horizon?—G. R. S."

Although Lord Rayleigh and others have since made more elaborate studies of the cause of the blueness, and other colorations, of the sky and have explained some technical details more fully, the work of John Tyndall on this subject still remains the general basis of all that we really know about it. Tyndall's artificial "blue skies," produced in transparent vessels filled with prepared liquids and vapors, were among the scientific marvels of the nineteenth century, and hardly anything that that great populariser of science did was more widely admired.

Briefly stated, Tyndall's explanation was that the atmosphere is opalescent, i.e. the air is a turbid medium, more or less filled with small floating particles, visible only through their effects. Later investigators like Prof. R. W. Wood, have concluded that even the molecules of the air themselves may act like floating particles in producing a differential scattering of the light-waves, depending upon the length of the waves and the size of the particles.

The blueness of smoke or of steam, seen mainly by reflected light suggests the nature of the cause that produces the sky blue. The particles are so fine that they are smaller in diameter than the longer light-waves, those toward the red end of the spectrum, but are comparable in dimension with the tinest of the waves, those at the blue end.

The consequence is that, while the longer waves pass on nearly unobstructed, the short blue ones are arrested and then scattered in every direction by the obstructing particles, which radiate this light by reflection all around them, and thus a blue illumination is spread through the atmosphere. It is the lateral dispersion of the short waves that turns the sky to an azure hue. As Tyndall says:

"We need only consider that we receive light at the same time from all parts of the hemisphere of heaven." (He is speaking of daylight). "The light of the firmament comes to us across the direction of the solar rays, and this lateral and opposing rush of wave-motion can only be due to the rebound of the waves from the air itself, or from something suspended in the air. It is also evident that the solar light is not reflected by the sky in the proportions which produce white, for the sky is blue, which indicates a deficiency on the part of the larger waves."

But, curiously enough, the same cause that makes the sky in the middle of the day, when the sunlight strikes downward at a high angle, appear blue, is the principal agent in coloring the atmosphere with gorgeous tints of red, orange and yellow when the sun is near or just below the horizon.

The explanation of this is that the air being a turbid medium has a dichroitic action upon light, which means that the air shows different colors according as it is seen by tranmitted or by reflected light. The transmitted light is predominantly red; the reflected predominantly blue.

In the middle of the day, when the sunlight has not so great a distance to pass through the air as near sunrise or sunset, the scattered blue light is sufficient to overpower the other, and so produces a prevailing blue tint. But when the sun is near the horizon the rays have to traverse seven or eight times as great a thickness of air as at noonday, and the number of obstructing particles consequently becomes so great that the short waves are absorbed by over scattering, which results in their practical extinction, leaving the longer waves alone to get through. Not only the sky colors but the color imparted to sun and moon seen through the increased thickness of air is thus explained. Again, no one has put this so clearly as Tyndall:

"They (the increasing number of atmospheric particles) abstract in succession the violet, the indigo, the blue, and even disturb the proportions of green. The transmitted light under such circumstances must pass from yellow through orange to red. Thus, while the reflected light gives us at noon the deep azure of the Alpine skies, the transmitted light gives us at sunset the warm crimson of the Alpine snows."

With regard to the sunset colors, it is interesting to remember that the atmosphere, by refraction, acts like a prism, bending the blue rays more out of their course, downward, than the red rays. This causes a star, when seen with a telescope near the horizon, to resemble a verticle spectrum. The blue appears at the bottom in the telescope, but is really at the top, and the arrangement of the colors in the star band is the same as in the sunset sky, viz., red below, then orange, then yellow, and above the blue of the higher sky.

CASTORIA
for Infants and Children.
The Effects of Opiates.
THAT INFANTS are peculiarly susceptible to opium and its various preparations, all of which are narcotic, is well known. Even in the smallest doses, if continued, these opiates cause changes in the functions and growth of the cells, which are likely to become permanent, causing imbecility, mental perversion, a craving for alcohol or narcotics in later life. Nervous diseases, such as intractable nervous dyspepsia and lack of staying power, are a result of dosing with opiates or narcotics to keep children quiet in their infancy. The rule among physicians is that children should never receive opiates in the smallest doses for more than a day at a time, and only then if unavoidable.
The administration of Anodynes, Drops, Cordials, Soothing Syrups and other narcotics to children by any but a physician cannot be too strongly decried, and the druggist should not be a party to it. Children who are ill need the attention of a physician, and it is nothing less than a crime to dose them wilfully with narcotics. Castoria contains no narcotics if it bears the signature of Chas. H. Fletcher.
The signature of Chas. H. Fletcher guarantees genuine Castoria
Physicians Recommend Castoria.
"Your preparation known as Castoria I have used for years in children's complaints and I have found nothing better."
JOHN J. LEFFA, M. D., Cleveland, Ohio.
"I have prescribed your Castoria in many cases and have always found it an efficient and speedy remedy."
A. F. PERLER M. D., St. Louis, Mo.
"For several years I recommended your 'Castoria' and shall always continue to do so, as it has invariably produced beneficial results."
EDWIN F. PARDEE, M. D., New York City.
"I have used your Castoria in my own household with good results, and have advised several patients to use it for its mild, laxative effect and freedom from harm."
EDWARD FARRIER, M. D., Brooklyn, N. Y.
"Your Castoria is a meritorious household remedy. It is purely vegetable and acts as a mild cathartic. Above all, it does no harm, which is more than can be said of the great majority of children's remedies."
VICTOR H. COFFMAN, M. D., Omaha, Neb.
"Your Castoria holds the esteem of the medical profession in a manner held by no other proprietary preparation. It is a sure and reliable medicine for infants and children. In fact it is the universal household remedy for infantile ailments."
J. A. PARKER, M. D., Kansas City, Mo.
Children Cry for Fletcher's Castoria.
In Use For Over 30 Years.

Irish Irregulars Disrupt Cables
(Reuter's Service)
London, August 8.—Cable communication between Europe and America is disorganised in consequence of the irregulars in Kerry having captured the Waterville and Valaentia cable-stations, creating a standstill with regard to the Commercial Cable Company and embarrassing the Western Union, who, apart from the Imperial, now control the sole communications, namely, the three Penzance cables.

Crimea Suffers Plague Of Locusts
(Reuter's Service)
Geneva, August 8.—The International Committee for the aid of Russia states that the position of Crimea is likely to be serious. No more than one-fifth of the area cultivated before the war is now being cultivated. Locusts have almost destroyed the wheat crop sown last year and the plague of locusts has also extended to the province of Samara, where it is difficult to estimate how much of the crop will be left for human consumption.

Exchange Fluctuations
Asia Banking Corporation

August 9, 1922

Spot Bar Silver was down ¼d and forward ⅛d in London yesterday. The New York price declined to 69 ⅛ and London, New York cross rate to 446.

The only change in our Official Rates here today was a drop in the Yen rate to 63¾ and a rise in the Franc rate to 925. Our market here opened steady, became firm in the course of the morning but eased off again slightly at the close.

At one time during the morning business in Sterling was done at 3-5 3-16 and in Gold Dollars 76½; however buyers came out at these rates so that the market eased off and closed with no sellers of Sterling at better than 3-5 1-16 and of Gold Dollars at 76- 5-16.

A small business in Yen was done during the course of the morning at 62⅝. Banks were quoting to buy Sterling 4 m-s at 3-5 ⅜, Gold Dollar Bills at 77⅜ and Franc Bills at 970. China and Continent sold Silver in London yesterday and India bought. The market there, as well as in New York, was quoted as steady.
